

Proven Excellence in Senior Living

Save 7-10% on your procurement costs!

Direct Supply® DSSI™ delivers supply chain eBusiness solutions built on years of experience in the Senior Living profession. With DSSI, you can experience web-based spend management, procurement and transaction clearing services that are customized for you. Our eBusiness system enables complete procurement automation and gives you the tools to optimize your profitability and efficiency.

Benefits of DSSI:

- Increase compliance savings by 3% with enhanced controls and spend analytics
- Get the prices you've agreed to with contract price matching and eliminate the average error rate of 14%
- Eliminate the costs associated with manual invoicing and paper processing through procurement and transaction automation
- No software or hardware to install – network is web-based
- Customized product catalogs and formularies

DSSI Integration Services

When you partner with DSSI, you will have a dedicated team at DSSI to help you through the integration process.

- **Integration Consultation:** An integration expert will share best practices from the profession and ensure that your site is customized based on your business model
- **Integration Analyst:** Works with you to identify the appropriate specifications to meet your AP needs. Through this process, this analyst will test and identify gaps in the integration
- **National Account Manager:** Dedicated contact at DSSI to help define your strategic vision for spend management
- **Training:** In-person and web-based training resources are available to drive system adoption and utilization
- **Marketing Support:** DSSI can assist you in creating news messages and other materials to increase communication and drive compliance at the community level
- **DSSI Ready Suppliers:** Direct access to all of DSSI's supply chain partners
- **Approval Management:** DSSI will help you determine your approval workflow so your structured approval management system is based on your existing processes and business needs
- **Web site Management:** DSSI builds your site and your product catalogs
