Since 1995, Direct Supply® DSSI™ has worked with the largest providers in Senior Living to bring top supply chain partners to the system. Over the years, we've grown to include hundreds of suppliers, and new ones are added each month.

You can capitalize on your automation savings by connecting with as many of them as possible on DSSI. In fact, you likely already work with many of these suppliers today, so connecting with them via DSSI is seamless.

DSSI takes your trust very seriously. We are very selective when choosing suppliers to add to the network – they must have provider sponsorship and we only add the best in class, so you can be confident in your options.

Make sure to optimize your spend by taking advantage of all the savings DSSI has to offer. We want you to get the most out of every dollar. That's why we provide multiple integration and payables automation options, including purchase orders & invoices, invoices only, scan and capture functionality and more. With DSSI, you can automate every area of spend, across your entire organization.

Here you'll see a list of the current suppliers available for you to connect with on DSSI – we're happy to help connect you with any of your preexisting supply chain partners or help you onboard completely new ones.
