Flexible mattress options accommodate your diverse resident population

A. NEW! Direct Supply® Panacea® Flip™ Mattresses – patent-pending dual-sided design allows you to meet your entire population’s comfort needs with just one mattress

- Mattress has a firm side and a softer side, providing two clear comfort options to choose from.
- Made with high-resiliency foam to provide good recovery and ultimate comfort.
- Four-way stretch cover is low shear, antimicrobial, fluid resistant and breathable with fluid-proof bottom; leak, or bottom out.
- Four-layer foam core provides pressure redistribution on both sides.
- Firm middle layer helps prevent sitting through or bottoming out and provides additional support to the therapeutic top layers.
- Built-in firm perimeter helps prevent sitting through or bottoming out and provides additional support to the therapeutic top layers.
- Super-soft heel area

B. NEW! Direct Supply® Panacea® ImmerseGel® Mattresses – specialized gel technology infused into a honeycomb foam mattress layer provides better comfort and cooling without increasing peak pressure

- 6½"H; meets 16 CFR 1633
- Based on the same clinically proven platform as the Panacea Immerse with the added benefit of cooling gel
- Three distinct zones use different foam densities to create varying levels of pressure redistribution
- Resilient cross-link, soft-polymer gel won’t dry out, leak, or bottom out
- Four-way stretch cover is low shear, antimicrobial, fluid resistant and breathable with fluid-proof bottom; allows for maximum resident immersion and envelopment
- 6"H; meets 16 CFR 1633

C. NEW! Direct Supply® Panacea® Immerse™ Mattresses – proven to redistribute pressure better, and comfortable too!

- Three distinct zones create varying levels of pressure redistribution
- Enhanced pressure redistribution zones are engineered specifically for high-risk areas including the head, shoulders, hips, legs and heels
- Open-cell viscoelastic top-layer foam core removes body heat at a greater rate than conventional foams
- 40% more airflow than traditional memory foam
- Based on the same clinically proven platform as the Panacea Immerse with the added benefit of cooling gel
- Convoluted-cut middle layers provide suspension-like support while improving immersion, increasing the amount of support area and lowering average pressures
- Super-soft foam protects heels, while the sloped heel section redistributes weight to the calf area to provide further comfort
- Full-length base provides firm foundation to preventbottoming out
- 6½"H; meets 16 CFR 1633
- Replacement covers are available for all mattresses.

D. Direct Supply® Panacea® Support & Support Plus Mattresses – available in 35”, 39” and 42”W to provide a comfortable sleep surface for varying resident needs

- The die-cut top layer provides comfort and additional airflow to help reduce heat buildup at the resident’s skin
- Convoluted-cut middle layers provide suspension-like support while improving immersion, increasing the amount of support area and lowering average pressures
- Super-soft foam protects heels, while the sloped heel section redistributes weight to the calf area to provide further comfort
- Built-in firm foam side-perimeters help to ease resident transfers and help reduce the risk of falls
- Full-length base provides firm foundation to prevent bottoming out
- 6½"H; meets 16 CFR 1633
- Replacement covers are available for all mattresses.
