

Initial Tablet Setup Instructions

- 1 CHARGE TABLET:** After removing from box, you can proceed if the tablet battery has at least 50% power. If not, please charge tablet for 4 to 6 hours prior to setup.

- 2 WELCOME:** After you turn on the tablet, select "NEXT."

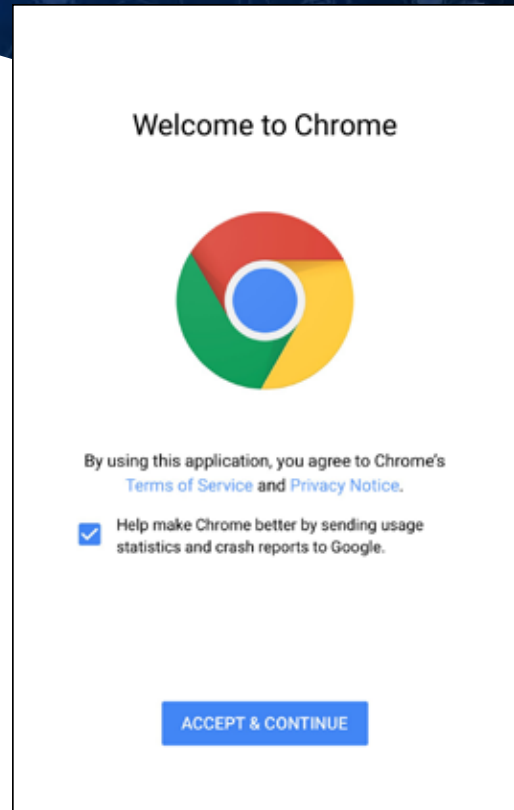

- 3 MOBILE DATA:** Select "NO, THANKS" when asked to add a mobile data plan. Select "NEXT" on the location screen.

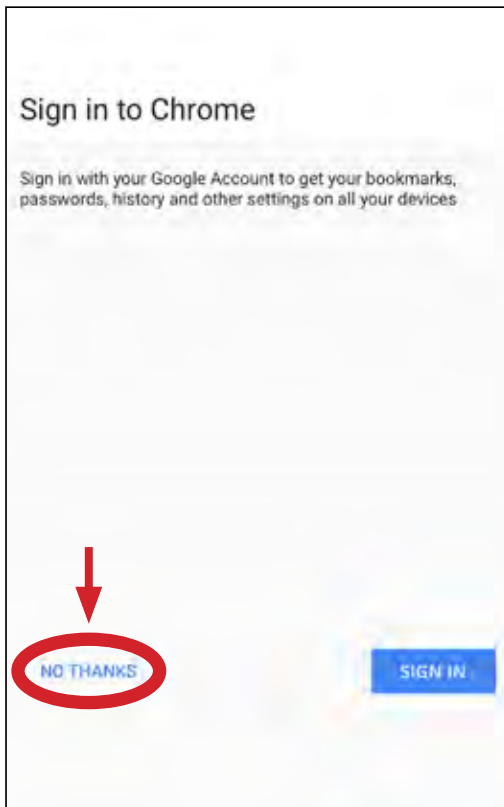

- 4 CONNECT TO WI-FI NETWORK:** Check with your IT administrator to select proper Wi-Fi network.

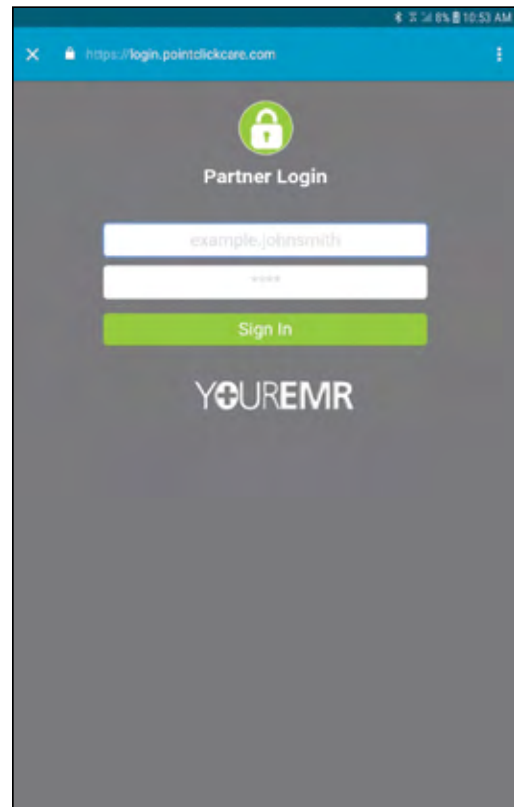

5 TABLET CONFIGURATION: The application will check for updates. Select "Yes" if asked if Direct Supply can configure your tablet. After agreeing to Terms of Service, you will see a series of six steps. The update may take several minutes. If configuration fails, retry. If not successful, contact your IT administrator. Once complete, select "Finish."

6 CHROME TERMS OF SERVICE: Click "Accept & Continue" for the browser's Terms of Service and Privacy Policy page.

7 CHROME SIGN-IN: Select "No Thanks" on the Chrome login page. If you selected "SIGN IN" on this screen, go back.

8 LOGIN PAGE: The DS smart™ application is now ready to use. Make sure tablet is fully charged before first use.

Please view the online training content or refer to the Quick Reference Guide for next steps.
