A

B

“

I would absolutely recommend Direct Supply's quick-ship program. Initially, I was skeptical we could find furniture in the program that would not look and feel institutional; however, there were some wonderful choices available, and we were able to achieve the high-end look we wanted.

Plus, every time a shipment was made, our client liaison would call to inform me of the shipment and then check back in with me to ensure everything had arrived without damage.

➤ **Sharon T.**, Interior Design Selections Coordinator

“ what's so special about teak?”

Maximize your outdoor spaces with teak, a very hard, densely grained wood that is naturally resistant to moisture, rotting, splintering and other pressures of the elements. With its durable construction and polished finish, teak furniture is a beautiful option that will last.
