

Did you know...

Furnishings available from Direct Supply are made for Senior Living, unlike furnishings found in a local store.

With more than 30 years of experience in Senior Living, Direct Supply is dedicated to seniors. In addition to unparalleled expertise and insights, we offer a comprehensive line card with furnishings backed by commercial-grade warranties. Unlike furniture purchased locally, Senior Living-specific furnishings feature contract-grade construction and will stand up to the daily wear and tear in your community.

**DIRECT
SUPPLY**

Discover contract-grade furniture designed for your dining areas

Boasting supreme durability and a wide selection of styles, Direct Supply's dining furnishings will stand up to your Senior Living dining room.

Many of Direct Supply's dining chairs feature:

Supportive arms that extend to the front of the seat and offer a graspable surface to help facilitate easier egress

Stretcher bars to help prevent legs from loosening for increased stability and longevity

Ideal dimensions for seniors that create increased accessibility and promote easier ingress and egress

Option for in-line wheels or casters on front legs that can assist residents when pulling up to the table and reduce stress on the chair frame

Frame material options ideal for your community. Wood chairs offer a warm, residential appeal while metal chairs work well in high-traffic areas as they hide scratches more effectively

Joint construction meant to stand the test of time in your Senior Living community. Many of our dining chairs feature ultra-durable mortise-and-tenon joints, reinforced butt joints or integrated front legs for seamless durability

Easy-clean fabrics. Pair easy-to-clean vinyl on chair seats with a coordinating performance fabric on chair backs for an on-trend look that supports the demands of Senior Living

Opening between the seat and back to help prevent crumbs from collecting in hard-to-clean places

Select a high quality table for your community

Mix and match tabletops and bases to get the ultimate combination of form and function.

Dining tables from Direct Supply feature:

Durable tabletop surfaces

- Laminate tabletops are affordable, durable and available in a variety of finish options
- Thermolaminate tabletops offer supreme durability and resistance to scratches, chipping and peeling. The seamless surface offers easy cleaning, helps eliminate harmful bacteria growth and is available in a variety of finish options

Tabletop edge styles

- Bullnose edges add an upscale look and are available in an array of finishes
- Spill-prevention edges, including spill-boundary and spill-retainer edges, help keep spills on the table and off of residents' clothes and the floor

Accommodating base designs

- Direct Supply offers countless options of wheelchair-height tables as well as pedestal bases that are less likely to interfere with dining chairs and wheelchairs
- Wood/metal combination bases are also offered to provide the optimal balance of high-end style and long-lasting durability

Choose from stylish furnishings featuring commercial-grade construction

Direct Supply offers common area furnishings that are ultra-supportive, supremely durable and easy to clean.

Many common area collections feature:

High-resiliency foam cushions that offer the firmness and support to last in demanding, commercial settings while facilitating easier ingress and egress to help seniors maintain their independence and quality of life

Shallow seat depth that promotes easy ingress and egress and is best suited for higher acuity environments where resident mobility is a top concern

Woven performance fabrics, like Crypton, resist stains and moisture for easy cleaning

Seat decking options that help promote cleaning and maintenance of your furniture. Many of our common area collections feature removable seat decking, which makes it even easier to clean

Contact your account manager today for more information or to order.

Find casegoods designed to meet the demands of Senior Living

With commercial-grade construction and features designed for residents, casegoods from Direct Supply are ideal for Senior Living communities.

Many of our casegood collections feature:

Positive-stop drawer locks to prevent accidental drawer removal, promoting resident safety

Rounded corners that help prevent injuries sometimes caused by sharp corners

High-pressure laminate tops that stand up to the rigors of daily use

Ventilated back panels promote air flow to help prevent bacteria growth and reduce odor

Durable construction with warranties valid for your unique setting, not the residential warranties offered by local furniture stores

Durable drawer joints to help the furniture last for years to come

Easy-to-grab hardware that is ideal for residents with limited dexterity

Counter-balanced construction helps prevent furniture from tipping forward

Optional drawer locks are available to provide secure storage
